

Continental ATE SL.6 Brake Fluid Ideal for Electronic Brake Systems

- Optimum replacement for DOT 4 fluid ESP, ABS, and ASR systems

Allentown, PA July 16, 2019 – Continental Commercial Vehicles & Aftermarket offers its ATE SL.6 Brake Fluid as an ideal brake fluid replacement for DOT 4 fluid in ESP, ABS, and ASR systems. The low-viscosity texture of ATE SL.6 allows electronic brake systems to react more quickly for improved safety.

Continental's Original ATE SL.6 Brake Fluid incorporates high-quality additives to help provide excellent protection against rust and corrosion, so the brakes are more durable and resistant. ATE SL.6 delivers excellent application coverage for the advanced braking systems used in all makes of high-end vehicles.

Dan Caciolo, Head of Product Management for Continental Independent Aftermarket Powertrain & Brake Systems, noted that in addition to ATE SL.6, Continental also offers ATE SL Brake Fluid for hydraulic brake and clutch systems and ATE TYP 200 Brake Fluid for racing applications.

ATE (www.ate-na.com) is an aftermarket brand of Continental Corporation, one of the world's leading brake system manufacturers and suppliers. From the introduction of the first hydraulic brake system in 1926 to the development of the first antilock braking system prototype in 1967, the ATE brand has a rich history of innovation and experience in the design and production of advanced brake system technologies.

Continental Commercial Vehicles & Aftermarket is a leading and trusted aftermarket supplier of OE-engineered aftermarket parts for HVAC and engine cooling, door systems, brake systems, tire pressure monitoring systems, engine management, fuel systems, and instrumentation.
