OTC hosts Summer Sweepstakes on Facebook with weekly tool giveaways for technicians

- ▶ One weekly winner to receive OTC tool(s) based on technician need
- ▶ Campaign runs through September 30, 2016
- ▶ Sweepstakes to be hosted on OTC's Official Facebook page

WARREN, Mich. – Technicians can win OTC specialty tools this summer by sharing their work with OTC. During OTC's Summer Sweepstakes, which is now live, technicians are encouraged to share photos or video of the vehicles they're fixing with OTC on Facebook for the opportunity to win special service tool(s).

Each week during the Summer Sweepstakes, OTC will focus on a different service theme. Technicians can submit photos or video of their work for a chance to win OTC tools. Weekly topics will range from engine, fuel, oil, transmission, steering, brake, wheel and tire, battery, electrical, body and more, covering nearly any service event a technician will experience.

Each week, OTC will randomly select one participating technician to receive a special tool(s) from OTC that relates to that week's service theme.

OTC helps build technician confidence, whether they are advanced or just getting started in the shop. OTC is a global supplier of vehicle electronic diagnostic instruments; fuel systems service tools; special service tools; general purpose tools; pullers; heavy-duty tools; shop equipment and hydraulic components.

To participate in the OTC Summer Sweepstakes, be sure to follow OTC Tools on Facebook: www.Facebook.com/OTCTOOLS.

About Bosch

In North America, the Bosch Automotive Service Solutions Business Unit of the Automotive Aftermarket business division (AA) supplies aftermarket and repair shops with a range of vehicle repair solutions. This includes testing and repair-shop technology, shop and wheel service equipment, specialty tools, diagnostic software, electric vehicle charging stations, dealership service programs and service training and information under the Bosch, OTC and Robinair brands.

The Bosch Group is a leading global supplier of technology and services. It employs roughly 375,000 associates worldwide (as of December 31, 2015). The company generated sales of 70.6 billion euros in 2015. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiaries and regional companies in some 60 countries. Including sales and service partners, Bosch's global manufacturing and sales network covers some 150 countries. The basis for the company's future growth is its innovative strength. Bosch employs 55,800 associates in research and development at roughly 118 locations across the globe. The Bosch Group's strategic objective is to deliver innovations for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life."
