

ZF Aftermarket Expands TRW Branded Corner Module Product Line Coverage to More Than an Additional 60 Million Vehicles

- TRW adds new SKUs to expand the Corner Module range for braking, steering and suspension
- Range extension applications further TRW's position of "True Originals" in the automotive aftermarket

The expanded TRW Corner Module product lines for braking, steering and suspension includes a new offering with more than 100 SKUs added to the range. These new applications continue TRW's position of 'True Originals' in the automotive aftermarket.

Over the past quarter, the TRW brand has added a total of 155 SKUs to the Corner Module offering: including 23 SKUs for ride control spanning more than 14.9 million vehicles in operation, 114 SKUs for chassis spanning more than 60.9 million vehicles in operation and 18 SKUs for braking components spanning more than 4.3 million vehicles in operation.

The new SKUs cover an extensive list of makes and models including:

- Dodge Ram 1500 Pickup 2016-2009 and Honda Civic 2015-2012 for ride control
- Nissan Rogue 2017-2008 and Jeep Grand Cherokee 2015-2011 for chassis
- Ram ProMaster 2018-14 and Hyundai Santa Fe 2017 for braking components

"The TRW product range is continuing to grow alongside the brand as a whole; the Corner Module specifically is expanding at a rapid rate. This continual growth allows us to provide our customers with a wide range of products for many different applications," said Brian Rassin, Product Group Manager, ZF Aftermarket.

The True Originals

The TRW brand is known for its high quality OE standards and offering customers a variety of products from a single OE-quality supplier. The Corner Module offers braking, steering and suspension parts that withstand the dynamic forces a car endures day in, day out.

All together in one powerful package, with ZF Aftermarket at the forefront of technical innovation, we offer safer, more effective products in one powerful package.
