New AAE Steering Gear Boxes from CRP Automotive Designed to Outperform OE on Ford Applications

- Larger, case-hardened shafts and oversized bearings help prevent premature failure

Cranbury, NJ... CRP Automotive (crpautomotive.com), a leading source of OE-quality replacement and service parts, offers a new line of AAE Steering Gear Boxes for popular Ford truck applications. These new gearboxes feature a better design that outperforms original equipment. They incorporate larger, case-hardened shafts and oversized bearings for superior performance and durability.

The OE steering gear boxes for some Ford truck applications feature sector shafts that are too hard and undersized, which can lead to premature failure under normal loads. AAE Ford Steering Gear Boxes feature a new improved design that's engineered to prevent premature failure caused by brittle and undersized sector shafts. Every gear box meets or exceeds OEM performance, is 100% quality tested in the USA, and is backed by a 2-Year / 24,000-mile warranty.

Key applications for AAE Ford Steering Gear Boxes include 1968-1979 Ford F100-F350, 2005-2008 Ford F250 and F350, and 2008-2010 Ford F250 and F350. AAE Steering Gear Boxes are sold as new parts. No core charges or trade-ins are required.

About AAE

Since 1987, AAE has been a leading industry brand for new and remanufactured steering racks, power steering pumps, gearboxes, and related power steering components. Stringent quality control procedures and commitment to testing 100% of all products has helped AAE earn one of the lowest warranty rates in the industry.

About CRP Automotive

CRP Automotive is a leader in the manufacture, marketing, and supply of OE quality import automotive parts. CRP provides some of the industry's leading brand names, including AAE Steering System Components, Rein[®] Automotive Parts and Accessories, ContiTech Automotive Belts and Kits, Pentosin Technical Fluids, and AJUSA Engine Parts. All products are backed by the CRP promise of quality and superior service. Founded in 1954, CRP Automotive has established a solid reputation for exceeding its customers' expectations. CRP maintains key distribution centers in North American markets.
