## **Bosch adds exclusive Repair-Source service information database to ADS 325 and 625 diagnostic tools**

- ▶ New Repair-Source included for techs who upgraded to software V 3.5; contains millions of unique data points for service information organized by YMME, VIN and AAIA vehicle classification
- ▶ Service, repair and collision estimation info from more than 150 ASE and I-CAR certified automotive professionals
- ▶ Valuable service info can save techs and shops time and money, replacing multiple subscriptions
- ▶ Software V3.5 also featured new coverage for BMW, Audi, Volkswagen, Mercedes-Benz, GM, Ford, Hyundai and Kia vehicles

**WARREN, Mich.,** – Bosch Automotive Aftermarket announced today the addition of the exclusive Repair-Source service information database to its ADS series professional diagnostic scan tools in North America. The new database is available now to tool owners who upgraded to software version 3.5 in mid-December. Repair-Source will be a part of the tool's annual diagnostic software subscription, offering valuable repair info that will help save time and money for shops and technicians. Integrating Repair-Source database within Bosch's ADS series tools provides the most complete and comprehensive diagnostic solution to repair vehicles in North America.

Technicians using a Bosch ADS tool will see the Repair-Source service information database on-screen after downloading and installing software V3.5. Repair-Source provides direct access to wiring diagrams, TSBs, service procedures, maintenance schedules, fluid recommendations and more, once the Repair-Source icon appears on a technician's tool. Combining the most relevant service and vehicle info with Bosch diagnostics can help techs diagnose and repair vehicles faster and with more confidence, reducing comebacks.

In addition, Repair-Source integration brings:

- Component locations
- DTC codes and definitions
- Estimated work times

- Parts and part vector illustrations
- Fluid recommendations
- Maintenance schedules
- Service procedures and specifications
- Technical Service Bulletins (TSBs)
- Vehicle identification and premium options
- Wiring diagrams

#### **About Bosch**

*The Automotive Aftermarket division (AA) provides the aftermarket and repair shops worldwide with a complete range of diagnostic and repair shop equipment and a wide range of spare parts – from new and exchange parts to repair solutions – for passenger cars and commercial vehicles. Its product portfolio includes products made as Bosch original equipment, as well as aftermarket products and services developed and manufactured in-house. More than 18,000 associates in 150 countries, as well as a global logistics network, ensure that some 650,000 different spare parts reach customers quickly and on time. In its “Automotive Service Solutions” operations, AA supplies testing and repair-shop technology, diagnostic software, service training, and information services under the Bosch, OTC and Robinair brands.. In addition, the division is responsible for the “Bosch Service” repair-shop franchise, one of the world’s largest independent chains of repair-shops, with some 17,000 workshops. In addition, AA is responsible for more than 1,000 “AutoCrew” partners.*

*The Bosch Group is a leading global supplier of technology and services. It employs roughly 402,000 associates worldwide (as of December 31, 2017). The company generated sales of 78.1 billion euros (\$88.2 billion) in 2017. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT company, Bosch offers innovative solutions for smart homes, smart cities, connected mobility, and connected manufacturing. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. The Bosch Group’s strategic objective is to deliver innovations for a connected life. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is “Invented for life.” The Bosch Group comprises Robert Bosch GmbH and its roughly 440 subsidiary and regional companies in 60 countries. Including sales and service partners, Bosch’s global manufacturing, engineering, and sales network covers nearly every country in the world. The basis for the company’s future growth is its innovative strength. At 125 locations across the globe, Bosch employs some 64,500 associates in research and development.*
