

## **MAHLE Service Solutions Launches New Facebook Page**

FARMINGTON HILLS, Mich. – May 21, 2019 – MAHLE has announced the official launch of its MAHLE Service Solutions Facebook page. The company will use this platform to provide automotive service professionals in the U.S. and Canada with technical content, product updates, photos and videos focused on the tool and equipment segment.

“It was extremely important to us at MAHLE Service Solutions to create a Facebook page specifically for our diagnostics and equipment users – the professional repair shop technicians,” said Rich Wolf, general manager, MAHLE Service Solutions North America. “We have a very specialized and technical target audience and we are excited to have this new platform to connect with them, further strengthening our relationship. Other MAHLE pages exist, but having a dedicated space for diagnostics and equipment focused content is something we’re very pleased to offer.”

By increasing its digital presence and ability to communicate real-time with tool and equipment end-users, MAHLE Service Solutions hopes to provide its Facebook audience with information and product support, as well as continuing to position itself as one of the industry’s leading providers of automotive and heavy duty service tools and equipment.

The Facebook page will feature tech tips, technical content, videos, product information, news, photos, industry information and more, serving as a hub for users of the MAHLE Service Solutions family of diagnostics and equipment. Technicians, independent service shop owners, distributors and jobbers are encouraged to like and follow this new page for the latest updates from MAHLE Service Solutions.

The new MAHLE Service Solutions Facebook page is located at [facebook.com/MAHLEServiceSolutions](https://www.facebook.com/MAHLEServiceSolutions).

**About MAHLE**

MAHLE is a leading international development partner and supplier to the automotive industry as well as a pioneer for the mobility of the future. The group’s product portfolio addresses all the crucial issues relating to the powertrain and air conditioning technology—both for drives with combustion engines and for e-mobility. In 2017, the group generated sales of approximately EUR 12.8 billion with around 78,000 employees and is represented in more than 30 countries with 170 production locations.

**About MAHLE Aftermarket**

MAHLE Aftermarket, the business unit specializing in spare parts, uses the expertise from the series production of original equipment in its automotive aftermarket product range, and supplies trade, repair shop and engine repair partners. MAHLE Aftermarket is represented at 22 locations and other sales offices worldwide, with 1,555 employees. In 2016, the business unit achieved a global sales volume of EUR 899 million (USD 946 million).

**About MAHLE Service Solutions**

MAHLE Aftermarket Inc., Service Solutions division specializes in the development, manufacturing and distribution of automotive services, tools and maintenance equipment, including vehicle diagnostics, air conditioning service, fluid exchange, nitrogen tire inflation systems, and hydraulic and pneumatic lift equipment. MAHLE Service Solutions continues its legacy of building shop equipment for the most stringent OEM and aftermarket needs. MAHLE Service Solutions combines the know-how of MAHLE Behr with automotive thermal management and MAHLE Powertrain with automotive test systems to provide OE manufacturers with advanced solutions developed through more than 25 years of R&D and technology deployment.

In addition to the high-quality products offered through its Service Solutions division, MAHLE Aftermarket provides a comprehensive and well-developed service network to ensure quick and professional technical support and training for repair shops.
