FOR IMMEDIATE RELEASE

BCA Bearings Expands Product Line with Additional SKUs

Mt. Prospect, Ill. – NTN, the parent company of BCA Bearings, has announced the release of 24 new product SKUs. The new products cover BCA's bearings line as well as its differential kit offering.

"We are pleased to be able to offer these additional SKUs to our customers as we continue to fill out our product offering," said Matt Gorski, Manager of Product Management. "We have made great progress on filling out our bearings product line. Furthermore, the addition of these differential kits is paramount to our persistent effort to provide the products our customers need. We hope our continued diligence illustrates our commitment to provide high-quality products in key coverage areas."

BCA Bearings, powered by NTN, is a long-time, trusted OE supplier to the automotive aftermarket. Proud to be providing solutions that include the most durable bearing products you need in the industry, BCA offers a full line of wheel hub assemblies, seals and loose bearings.

Complete product and catalog information for the BCA line can be found at www.BCABearings.com and www.ShowMeTheParts.com.

About BCA

BCA® has over a century of experience supplying wheel end solutions in America. Today BCA is owned by NTN, a global manufacturer of wheel hub assemblies and bearings. As the #1 supplier of OE-quality hub assemblies, we fulfill more than 30% of the demand for North American OE vehicle production from our Elgin, Illinois plant. In the Aftermarket, this gives BCA the advantage of providing highly-engineered replacement parts that meet or exceed the OE engineering specifications. We leverage this expertise to offer application full-line coverage for both domestic and foreign nameplates. For more information, visit www.BCABearings.com.
