AARC Annual Ride to Raise Funds for Automotive Scholarships

*Motorcycle Ride from Las Vegas to Death Valley, Yosemite National Park
Benefits University of the Aftermarket Foundation*

Bethesda, MD – Aug. 26, 2019 – The Automotive Aftermarket Riders Club (AARC) will once again “Ride for the Future” with the proceeds from their annual ride benefiting the University of the Aftermarket Foundation.

AARC encourages support of their mission to fund scholarships and educational opportunities for the next generation by donating to the University of the Aftermarket Foundation, sponsoring a rider or joining AARC on this year’s epic adventure.

The scenic AARC “Ride for the Future” will begin at Eagle Rider Rentals and Tours in Las Vegas on Thursday, Oct. 31 with the riders heading to Bishop, California via Death Valley. The following day, the riders will travel to Yosemite National Park and back to Bishop before returning to Las Vegas on Saturday, Nov. 2.

“There’s no doubt this will be another fantastic journey filled with incredible sights as well as great fun and camaraderie,” said Bill Maggs, MAAP, treasurer of the University of the Aftermarket Foundation and leader of the pack. “All proceeds from the Ride for the Future will be donated to the University of the Aftermarket Foundation, so if you can’t join us, please consider supporting a rider by making a donation to the University of the Aftermarket Foundation.”

Interested riders can rent motorcycles from Eagle Rider Rentals and Tours with an advance reservation. For more information or to learn how to become a rider or sponsor, contact Mike Mohler, MAAP at mikem@thegroupaspg.com or visit the [AARC Facebook page](#).

To support the AARC Ride for the Future by making a donation to the University of the Aftermarket Foundation, visit www.UofA-Foundation.org or download and submit the AARC donor [form](#) from the resources section of the UAF website.

About the University of the Aftermarket Foundation

Since 1986, the University of the Aftermarket Foundation has funded millions of dollars of scholarships, grants, research and ongoing educational programs to help develop a strong, knowledgeable aftermarket work force. The foundation encourages industry support, including donations for the purpose of honoring or memorializing individuals or otherwise recognizing special events, to help ensure the continued availability of training and education that strengthen the industry. For more information about the University of the Aftermarket Foundation, visit www.UofA-Foundation.org.
